***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1 - 11, drawn to a wind turbine structure, classified in class 290.
  - II. Claims 12 - 24, drawn to a structural element, a suspension, classified in class 74.
2. The inventions are distinct, each from the other because of the following reasons: Inventions of Group I and Group II are unrelated. Inventions are unrelated if it can be shown that they have different modes of operation, or they have different functions, or they have different effects. (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions and effects.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
